

产品名称	ZXC round wave and trapezoid PVC roofing sheet in different colors
品牌	ZXC
生产地址	Foshan city,Guangdong province,China(Mainland)
材料	Polyvinyl chloride,Calcium powder,other chemical materials
厚度	10 毫米
认证	ISO9001 / SGS / CE
最小起订量	300 square meter
交货期	1x20GP for 6 days,1x40GP for 7 days
生产能力	We have 8 produce lines,about 13500 square meter every day
付款方式	T/T , firstly pay 30% deposit,before loading container pay rest of payment L/C ,
服务	Full Container Load (FCL) Service,We do it by myself. Less than Container Load (LCL) Service,We find our agents to do it.
包装	Pallet or PE bag
销售地区	Guangzhou / Shenzhen / Foshan
应用	Factory,Warehouse,Farm,Market,Aisle.Especially in corrosive chemical plants, smelters, ceramic plants, soy sauce factory, chemical plants, printing and dyeing plant, organic solvent factory, acid, alkali and other corrosive plant

产品型号	#1130-210-24
类型	Trapezoid type
总宽度	1130mm
Effective Width	1050mm

厚度	1.3mm / 1.5mm / 1.8mm / 2.0mm / 2.3mm / 2.5mm / 2.8mm / 3.0mm
长度	5.8meter / 11.8meter / Customized
颜色	White / Blue / Green / Red / Customized
Wave Spacing	210mm
厚度 厚度	24mm
层数	One layer / Two layers / Three layers

- **Anti-corrosion**

- ZhongXingCheng PVC plastic roofing sheet in the long term against acid, alkali, salt and other corrosive chemicals. Experiments prove that: In the salt, alkali and 60% following a 24-hour soaking

in acid, no chemical reaction. Very suitable for acid rainprone areas and coastal use, the effect was particularly significant.

- 耐腐蚀 耐久

- ZhongXingCheng PVC plastic roofing sheet's surface materials is co-extruded in ultra-weather surface layer resin to ensure the durability of products (for 15 years in quality assurance).

- 阻燃 防火

- ZhongXingCheng PVC plastic roofing sheet is a flame retardant materials, through the national fire authority of the department according to GB8624-2006 standards for testing, fire safety performance  $\geq$  B1 grade.

- **Heat Insulation**

- ZhongXingCheng PVC plastic roofing sheet's thermal conductivity coefficient is 0.325w/mk, clay tile is about 1 / 310, cement tile 1 / 5, 0.5mm thick color steel tile 1 / 2000. Therefore, without considering the case of insulation layer increases, the PVC plastic roofing sheet can still achieve the best thermal insulation properties.

- 降噪 隔音

- The tests prove that: in suffering heavy rain, high winds the impact of outside noise, ZhongXingCheng PVC plastic roofing sheet has a good absorption of the noise effect, noise down 30dB than color steel tile.
